Domestic Contents Valuation Guide

What are your contents really worth?

You might be surprised when you add it up!

It really is worth the time to work out the value of your contents. You need to consider in advance what the cost will be to replace all your contents — from socks to crock-pots to make-up and sports gear.

This handy valuation guide will help you work out the value of items that you own. We have provided approximate values for major items in a typical home, showing both an average cost and a high quality cost, to help you decide what your contents are worth.

You should check your policy wording to see what you are covered for and whether it's for 'replacement' or 'indemnity' (depreciated) value. Your wording will also indicate items that have limits, need to be specified or require valuations, such as jewellery.

Make sure you have the best policy and the right level of cover in place in case the unthinkable happens and you lose everything in your house.

If you would like help to understand the different policies on offer or you have misplaced your policy wording and would like one sent out to you, please contact your broker.
